Anesthesia & Procedures Consent Form

Pet Name_____ Procedure:_____

Last Time Pet Ate:_____

Anesthetic Risk: I understand that there are inherent risks associated with anesthesia and surgical procedures, and I authorize the doctors & staff at Maplewood Animal Hospital to administer general anesthetic: injectable and/or inhalation. Should complications arise, lifesaving procedures may be carried out without my further consent, and I accept responsibility for resulting charges.
Initials: _____

Surgery/Procedures: I have been informed about the nature of the surgery or procedure my pet will undergo-the anticipated results, possible alternatives, and possible complications that could arise. I release the clinic from any loss or expense these actions might cause me, provided these actions are consistent with normally accepted veterinary practice. **Initials_____**

Pain Medication: Injectable pain medication is administered during your pet's procedure. Additional oral pain medication will be sent home with your pet. The additional fee is $7.00 to $35.00. **Initials_____**

ADDITIONAL OPTIONS: ***(please circle yes or no)***

Pre-Anesthetic Blood work: This is an excellent screening tool to assess organ function, electrolyte levels, and blood counts. This test is recommended but optional. The fee is **91.00.**
YES NO

Datamar Microchip: This is a permanent form of identification, injected under your pet's skin. The fee for this procedure is **$46.00** which includes registration.
YES NO

Nail Trim: Would you like us to trim your pet's nails at **no charge**? **YES NO**

For the protection of all patients in the clinic, if live fleas are noted on your pet, they will be treated. The treatment fee ranges from $6.00 to $17.00 and is at the doctor's discretion.
